FIT2104 Web Programming - Group Project Brief

Instructions:

1. Form a group of 4 to 5 members and register on eBwise by Week 2.
2. Submit your work through eBwise before 11:59 pm on the due date.
3. Plagiarism will result in zero marks for the whole group.

Project Tasks

Your group is required to:

- Interview at least three shop owners in Cyberjaya to collect their requirements for an online ordering website.
- Design the page layouts and the colour scheme in Figma.
- Develop the website using PHP and MySQL.
 - The website must work on mobile phones.
 - Store all orders in the database.

- Write a technical report that explains the design and the testing.
- Present a live demo of the website in Week 13.

Assessment

The marking rubric will be released on eBwise in Week 3.
